CAPABILITY STATEMENT

The Grime Scene Guys *Specialist Cleaning & Biohazard Remediation*

Company Overview

The Grime Scene Guys is a specialist cleaning company based in England, dedicated to providing professional, discreet, and highly effective remediation services. We tackle the environments that standard cleaning companies cannot, focusing on public health, safety, and the restoration of properties to a safe, habitable condition. Whether dealing with hazardous waste or deep-cleaning neglected properties, our team operates with the highest level of professionalism and sensitivity.

Core Competencies

We provide a comprehensive range of specialist cleaning services, including:

- **Biohazard Cleaning:** Professional decontamination and removal of biological hazards, including blood, bodily fluids, and forensic scenes.
- **Human Waste Disposal:** Safe and hygienic removal of human waste from properties or public areas, followed by thorough sanitization to eliminate health risks.
- **Odour Removal:** Utilizing industrial-grade ozone generators and fogging technology to permanently neutralise persistent odours (such as smoke, decomposition, or damp) rather than simply masking them.
- **Used Syringe Collection (Needle Sweeps):** Safe identification, collection, and legal disposal of sharps and drug-related paraphernalia to ensure public and site safety.
- **Void Property Cleaning:** Rapid turnaround services for vacant properties, restoring them to "ready-to-let" standards through intensive cleaning and sanitization.
- **End of Tenancy Cleaning:** Deep-cleaning services for landlords and letting agents, ensuring properties meet strict hygiene standards for new occupants.
- **Hoarder Clearance:** Compassionate, structured, and highly respectful clearing and deep decontamination of severely hoarded properties. We manage properties suffering from extreme clutter, gross filth, and structural neglect, restoring safety, accessibility, and hygiene to the living space.
- **Professional Oven Cleaning Service:** Specialist high-temperature deep cleaning and chemical restoration of domestic and commercial catering ovens, hobs, extraction systems, and racks, removing carbonized grease and maintaining commercial hygiene compliance.

- **Pest Control:** Professional detection, eradication, and preventative proofing for residential and commercial environments. We eliminate infestations safely and establish robust biological barriers to protect properties from structural damage and health risks.

Key Differentiators

- **Rapid Response:** We understand that biohazards and property turnovers often require urgent attention; we offer fast deployment across our service areas.
- **Discretion & Compassion:** Our team is trained to work sensitively in high-stress environments, ensuring privacy for our clients and the community.
- **Regulatory Compliance:** All hazardous waste, including sharps, is handled and disposed of in strict accordance with UK health and safety regulations and environmental waste protocols.
- **Specialized Equipment:** We utilize hospital-grade disinfectants and professional-grade PPE to ensure the total eradication of pathogens.

Past Performance / Clients

We serve a diverse range of sectors, including:

- Private Landlords & Letting Agents
- Commercial Property Managers
- Housing Associations
- Local Authorities & Public Spaces

Regulatory Compliance & Licenses

We maintain strict adherence to UK health and safety regulations and environmental waste protocols.

- **Registered Waste Carrier: The Grime Scene Guys is a certified Upper Tier Waste Carrier, Broker, and Dealer.**
- **Registration Number: CBDU622870.**
- **Regulating Authority: Environment Agency.**
- **Commitment to Safety: All hazardous waste and sharps are handled and disposed of in accordance with professional legal standards.**
